GitHub: github.com/SomironGope | Live Project: Forever E-Commerce

PROFESSIONAL SUMMARY

MERN Stack Developer focused on building responsive, user-friendly full-stack web applications with MongoDB, Express.js, React.js, and Node.js. Built and deployed Forever E-Commerce, a full-stack clothing store with product browsing and search, customer authentication, cart and checkout flows, order management, and an admin dashboard. Hands-on personal-project experience with REST API integration, database-backed features, frontend/backend integration, and deployment. Interested in junior developer opportunities and freelance projects where I can deliver practical web solutions and continue growing.
